

# Pediatric Cancer Research Foundation 2003 Grants

## **2003 PCRFB Laboratory Grant**

Mitchell Cairo, M.D.  
Columbia University Medical Center  
New York, New York  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **2003 Translational Grant**

Pediatric Cancer Research Foundation Consortium (includes the following institutions)  
Mitchell Cairo, M.D.  
\*Columbia University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Paul Gaynon, M.D.  
\*Children's Hospital Los Angeles\*  
Stephen A. Feig, M.D.  
\*UCLA Children's Health Center\*  
Violet Shen, M.D.  
\*Children's Hospital of Orange County\*  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **2003 High Impact Grants**

Laurence Cooper, M.D., Ph.D.  
Beckman Research Institute of the City of Hope  
Duarte, California  
*Cellular Immunotherapy for B-Lineage Lymphoma.*

Thomas Kaleita, Ph.D.  
University of California, Los Angeles  
Los Angeles, California  
*Growth and Neurodevelopment of Infants with Leukemia.*

## **2003 Designated Grants**

National Marrow Donor Program  
Washington, D.C.  
*Minority Focused Recruitment and Awareness for the National Marrow Donor Program.*

## **2003 Lectureships and Symposia**

First International Symposium on Childhood Non-Hodgkin's Lymphoma  
Co- Chairs - Mitchell Cairo, M.D. from Columbia University Medical Center  
Alfred Reiter, M.D. from University of Giessen, Germany  
*Latest scientific and clinical advances in childhood hematological malignancies and stem cell transplantation.*

Pediatric Cancer Research Foundation Memorial Lectureship (Feb. 2003)  
Robert Arceci, M.D., Ph.D.  
Johns Hopkins Children's Center  
*Optimizing translational research in pediatric malignancies*

# Pediatric Cancer Research Foundation 2002 Grants

## **2002 PCRF Laboratory Grant**

Mitchell Cairo, M.D.  
Columbia University Medical Center  
New York, New York  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **2002 Translational Grant**

Pediatric Cancer Research Foundation Consortium (\*includes the following institutions\*)  
Mitchell Cairo, M.D.  
\*Columbia University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Stuart Siegel, M.D.  
\*Children's Hospital Los Angeles\*  
Stephen A. Feig, M.D.  
\*UCLA Children's Health Center\*  
Violet Shen, M.D.  
\*Children's Hospital of Orange County\*  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **2002 High Impact Grants**

Laurence Cooper, M.D., Ph.D.  
Beckman Research Institute of the City of Hope  
Duarte, California  
*A Phase I study using genetically modified clones.*

Thomas Kaleita, Ph.D.  
University of California, Los Angeles  
Los Angeles, California  
*Growth and Neurodevelopment of Infants with Leukemia.*

Charles P. Theuer, M.D.  
UCI Medical Center  
Irvine, California  
*Development of an anti-cancer vaccine using non-toxic bacteria to stimulate cellular immunity to neuroblastoma.*

## **2002 Designated Grants**

National Marrow Donor Program  
Washington, D.C.  
*Minority Focused Recruitment and Awareness for the National Marrow Donor Program.*

## **2002 Lectureships and Symposia**

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 2002)  
Thomas Look, M.D.  
Dana-Farber Cancer Institute, Harvard Medical School  
*Genetic Models of Leukemogenesis and Neuroblastoma.*

# Pediatric Cancer Research Foundation 2001 Grants

## **2001 PCRFB Laboratory Grant**

Mitchell Cairo, M.D.  
Columbia University Medical Center  
New York, New York  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **2001 Translational Grant**

Pediatric Cancer Research Foundation Consortium (\*includes the following institutions\*)  
Mitchell Cairo, M.D.  
\*Columbia University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Stuart Siegel, M.D.  
\*Children's Hospital Los Angeles  
Marcio Malogolowkin, M.D.  
\*UCLA Children's Health Center  
Violet Shen, M.D.  
\*Children's Hospital of Orange County  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **2001 High Impact Grants**

Leonard Sender, M.D.  
Children's Hospital of Orange County  
Orange, California  
*Cellular therapy post-transplant to prevent relapse and prolong remission in neuroblastoma patients.*

Laurence Cooper, M.D., Ph.D.  
Beckman Research Institute of the City of Hope  
Duarte, California  
*A Phase I study using genetically modified clones.*

Charles P. Theuer, M.D.  
UCI Medical Center  
Irvine, California  
*Anti-cancer vaccine using non-toxic bacteria to stimulate cellular immunity to neuroblastoma.*

Amy Strelzer Manasevit Research Scholars  
National Marrow Donor Program  
Washington, D.C.  
*Fellowship in the field of transplantation and graft-versus-host disease*

## **2001 Designated Grants**

National Marrow Donor Program  
Washington, D.C.  
*Minority Focused Recruitment and Awareness for the National Marrow Donor Program.*

## **2001 Lectureships and Symposia**

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 2001)  
Joanne Kurtzberg, M.D.  
Duke University Translational Medicine Institute  
*Using umbilical cord blood as a novel source of stem cells for bone marrow transplantation.*

# Pediatric Cancer Research Foundation 2000 Grants

## **2000 PCRF Laboratory Grant**

Mitchell Cairo, M.D.  
Columbia University Medical Center  
New York, New York  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **2000 Translational Grant**

Pediatric Cancer Research Foundation Consortium (\*includes the following institutions\*)  
Mitchell Cairo, M.D.  
\*Columbia University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Stuart Siegel, M.D.  
\*Children's Hospital Los Angeles\*  
Marcio Malogolowkin, M.D.  
\*UCLA Children's Health Center\*  
Violet Shen, M.D.  
\*Children's Hospital of Orange County\*  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **2000 High Impact Grants**

Leonard Sender, M.D.  
Children's Hospital of Orange County  
Orange, California  
*Cellular therapy post-transplant to prevent relapse and prolong remission in neuroblastoma patients.*

Amy Strelzer Manasevit Research Scholars  
National Marrow Donor Program  
Washington, D.C.  
*Fellowship in the field of transplantation and graft-versus-host disease*

Charles P. Theuer, M.D.  
UCI Medical Center  
Irvine, California  
*Development of an anti-cancer vaccine using non-toxic bacteria to stimulate cellular immunity to neuroblastoma.*

## **2000 Designated Grants**

CHOC Children's Cord Blood Bank  
Orange, California  
*Umbilical cord blood bank at Children's Hospital of Orange County.*

National Marrow Donor Program  
Washington, D.C.  
*Minority Focused Recruitment and Awareness for the National Marrow Donor Program.*

## **2000 Lectureships and Symposia**

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 2000)  
Gregory H. Reaman, M.D.  
Children's National Medical Center  
*Childhood acute lymphoblastic leukemia.*

# Pediatric Cancer Research Foundation 1999 Grants

## **1999 PCRF Laboratory Grant**

Mitchell Cairo, M.D.  
Georgetown University Medical Center  
Washington, D.C.  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **1999 Translational Grant**

Pediatric Cancer Research Foundation Consortium (\*includes the following institutions\*)  
Mitchell Cairo, M.D.  
\*Georgetown University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Stuart Siegel, M.D.  
\*Children's Hospital Los Angeles\*  
Marcio Malogolowkin, M.D.  
\*UCLA Children's Health Center\*  
Violet Shen, M.D.  
\*Children's Hospital of Orange County\*  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **1999 High Impact Grants**

Leonard Sender, M.D.  
Children's Hospital of Orange County  
Orange, California  
*Cellular therapy post-transplant to prevent relapse and prolong remission in neuroblastoma patients.*

Charles P. Theuer, M.D.  
UCI Medical Center  
Irvine, California  
*Development of an anti-cancer vaccine using non-toxic bacteria to stimulate cellular immunity to neuroblastoma.*

## **1999 Designated Grants**

Amy Strelzer Manasevit Research Scholars  
National Marrow Donor Program  
Washington, D.C.  
*Fellowship in the field of transplantation and graft-versus-host disease*

## **1999 Lectureships and Symposia**

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 1999)  
John J. Kersey, M.D.  
Masonic Cancer Center, University of Minnesota  
*Infant and childhood leukemia caused by an abnormality of a gene called MLL.*

# Pediatric Cancer Research Foundation 1998 Grants

## **1998 PCRF Laboratory Grant**

Mitchell Cairo, M.D.  
Georgetown University Medical Center  
Washington, D.C.  
*Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.*

## **1998 Translational Grant**

Pediatric Cancer Research Foundation Consortium (\*includes the following institutions\*)  
Mitchell Cairo, M.D.  
\*Georgetown University Medical Center\*  
Gregory H. Reaman, M.D.  
\*Children's National Medical Center\*  
Stuart Siegel, M.D.  
\*Children's Hospital Los Angeles\*  
Marcio Malogolowkin, M.D.  
\*UCLA Children's Health Center\*  
Violet Shen, M.D.  
\*Children's Hospital of Orange County\*  
*Develop and execute Phase I, Phase II and/or pilot clinical research protocols.*

## **1998 High Impact Grants**

Leonard Sender, M.D.  
Children's Hospital of Orange County  
Orange, California  
*Cellular therapy post-transplant to prevent relapse and prolong remission in neuroblastoma patients.*

Charles P. Theuer, M.D.  
UCI Medical Center  
Irvine, California  
*Development of an anti-cancer vaccine using non-toxic bacteria to stimulate cellular immunity to neuroblastoma.*

## **1998 Designated Grants**

Amy Strelzer Manasevit Research Scholars  
National Marrow Donor Program  
Washington, D.C.  
*Fellowship in the field of transplantation and graft-versus-host disease*

## **1998 Lectureships and Symposia**

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 1998)  
Robertson Parkman, M.D.  
Children's Hospital Los Angeles  
*Immune reconstitution after hematopoietic stem cell transplantation and primary immune deficiencies*
