

Pediatric Cancer Research Foundation 2008 Grants

2008 PCRF Laboratory Grant

Mitchell Cairo, M.D.
Columbia University Medical Center
New York, New York
Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.

2008 Translational Grant

Pediatric Cancer Research Foundation Consortium (*includes the following institutions*)
Mitchell Cairo, M.D.
Columbia University Medical Center
Paul Gaynon, M.D.
Children's Hospital Los Angeles
Theodore Moore, M.D.
UCLA Children's Health Center
Violet Shen, M.D.
Children's Hospital of Orange County
Develop and execute Phase I, Phase II and/or pilot clinical research protocols.

2008 High Impact Grants

Michael Jensen, M.D.
Beckman Research Institute of the City of Hope
Duarte, California
Research in the development of T-cell based therapeutics for children.

Laurence Cooper, M.D., Ph.D.
MD Anderson Cancer Center
Houston, Texas
Development of a novel cellular immunotherapy approach to treating children with relapsed embryonal brain tumors.

2008 Designated Grants

Karen Sakamoto, M.D., Ph.D.
UCLA Children's Health Center
Los Angeles, California
Translational research using targeted therapies in pediatric malignancies.

Jonathan Finlay, M.D.
Children's Hospital Los Angeles
Los Angeles, California
The Head Start Consortium for the Treatment of Young Children with Malignant Embryonal Central Nervous System Tumors.

Pediatric Cancer Research Foundation 2007 Grants

2007 PCRFB Laboratory Grant

Mitchell Cairo, M.D.
Columbia University Medical Center
New York, New York
Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.

2007 Translational Grant

Pediatric Cancer Research Foundation Consortium (*includes the following institutions*)
Mitchell Cairo, M.D.
Columbia University Medical Center
Paul Gaynon, M.D.
Children's Hospital Los Angeles
Theodore Moore, M.D.
UCLA Children's Health Center
Violet Shen, M.D.
Children's Hospital of Orange County
Develop and execute Phase I, Phase II and/or pilot clinical research protocols.

2007 High Impact Grants

Michael Jensen, M.D.
Beckman Research Institute of the City of Hope
Duarte, California
Research in the development of T-cell based therapeutics for children.

Laurence Cooper, M.D., Ph.D.
MD Anderson Cancer Center
Houston, Texas
Development of a novel cellular immunotherapy approach to treating children with relapsed embryonal brain tumors.

2007 Designated Grants

National Marrow Donor Program
Washington, D.C.
Minority Focused Recruitment and Awareness for the National Marrow Donor Program.

Robert C. Seeger, M.D.
Children's Hospital Los Angeles
Los Angeles, California
New Approaches to Neuroblastoma Therapy (NANT) research program.

Pediatric Cancer Research Foundation 2006 Grants

2006 PCRF Laboratory Grant

Mitchell Cairo, M.D.
Columbia University Medical Center
New York, New York
Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.

2006 Translational Grant

Pediatric Cancer Research Foundation Consortium (*includes the following institutions*)
Mitchell Cairo, M.D.
Columbia University Medical Center
Paul Gaynon, M.D.
Children's Hospital Los Angeles
Theodore Moore, M.D.
UCLA Children's Health Center
Violet Shen, M.D.
Children's Hospital of Orange County
Develop and execute Phase I, Phase II and/or pilot clinical research protocols.

2006 High Impact Grant

Michael Jensen, M.D.
Beckman Research Institute of the City of Hope
Duarte, California
Research in the development of T-cell based therapeutics for children.

2006 Designated Grants

National Marrow Donor Program
Washington, D.C.
Minority Focused Recruitment and Awareness for the National Marrow Donor Program.

Robert C. Seeger, M.D.
Children's Hospital Los Angeles
Los Angeles, California
New Approaches to Neuroblastoma Therapy (NANT) research program.

Jonathan Finlay, M.D.
Children's Hospital Los Angeles
Los Angeles, California
The Head Start Consortium for the Treatment of Young Children with Malignant Embryonal Central Nervous System Tumors.

2006 Lectureships and Symposia

Second International Symposium on Childhood Non-Hodgkin's Lymphoma
Co-Chairs - Mitchell Cairo, M.D. from Columbia University Medical Center
Alfred Reiter, M.D. from University of Giessen, Germany
Latest scientific and clinical advances in childhood hematological malignancies and stem cell transplantation.

Advances in Neuroblastoma Research Conference 2006
Robert C. Seeger, M.D., President ANR
Los Angeles, California

Pediatric Cancer Research Foundation 2005 Grants

2005 PCRFB Laboratory Grant

Mitchell Cairo, M.D.
Columbia University Medical Center
New York, New York
Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.

2005 Translational Grant

Pediatric Cancer Research Foundation Consortium (*includes the following institutions*)
Mitchell Cairo, M.D.
Columbia University Medical Center
Paul Gaynon, M.D.
Children's Hospital Los Angeles
Theodore Moore, M.D.
UCLA Children's Health Center
Violet Shen, M.D.
Children's Hospital of Orange County
Develop and execute Phase I, Phase II and/or pilot clinical research protocols.

2005 High Impact Grant

Laurence Cooper, M.D., Ph.D.
Beckman Research Institute of the City of Hope
Duarte, California
Cellular Immunotherapy for B-Lineage Lymphoma.

2005 Designated Grants

National Marrow Donor Program
Washington, D.C.
Minority Focused Recruitment and Awareness for the National Marrow Donor Program.

Robert C. Seeger, M.D.
Children's Hospital Los Angeles
Los Angeles, California
New Approaches to Neuroblastoma Therapy (NANT) research program.

2005 Lectureships and Symposia

Pediatric Cancer Research Foundation Memorial Lectureship (May 2005)
Malcolm Brenner, M.D., Ph.D.
Texas Children's Cancer Center, Baylor College of Medicine
Manipulating the anti-leukemic effector function to kill residual cancer cells after stem cell transplantation.

Pediatric Cancer Research Foundation 2004 Grants

2004 PCRF Laboratory Grant

Mitchell Cairo, M.D.
Columbia University Medical Center
New York, New York
Basic, Translational and Clinical Research in Pediatric Hematology, Oncology and Stem Cell Transplantation.

2004 Translational Grant

Pediatric Cancer Research Foundation Consortium (*includes the following institutions*)
Mitchell Cairo, M.D.
Columbia University Medical Center
Paul Gaynon, M.D.
Children's Hospital Los Angeles
Theodore Moore, M.D.
UCLA Children's Health Center
Violet Shen, M.D.
Children's Hospital of Orange County
Develop and execute Phase I, Phase II and/or pilot clinical research protocols.

2004 High Impact Grant

Laurence Cooper, M.D., Ph.D.
Beckman Research Institute of the City of Hope
Duarte, California
Cellular Immunotherapy for B-Lineage Lymphoma.

2004 Designated Grants

National Marrow Donor Program
Washington, D.C.
Minority Focused Recruitment and Awareness for the National Marrow Donor Program.

Robert C. Seeger, M.D.
Children's Hospital Los Angeles
Los Angeles, California
New Approaches to Neuroblastoma Therapy (NANT) research program.

2004 Lectureships and Symposia

Pediatric Cancer Research Foundation Memorial Lectureship (Jan. 2004)
Michael P. Link, M.D.
Stanford University School of Medicine
Progress in therapy for non-Hodgkin's Lymphoma in children.
