

# FREQUENTLY ASKED QUESTIONS

---

**Q. How many members do I need on my team?**

A. The more the merrier! You can have a team of 1 or 1,000. But we encourage you to aim for 10 to start off with.

**Q. Is there a required fundraising amount?**

A. No. We encourage all teams to set an ambitious fundraising goal. \$150 per participant is a great starting point, and \$1,500 per team is encouraged to earn team shirts.

**Q. How do participants raise money?**

A. Participants are supported with donations by co-workers, friends, family, neighbors or local businesses. Most participants get about 20 donors. Many companies also sponsor their participants or provide matching gifts.

**Q. Do I get a T-Shirt?**

A. Yes. All participants and team members will receive a Dribble for the Cure shirt. The custom shirts are only given to teams who hit their fundraising goal.

**Q. Why urge participants to fundraise online?**

A. It's easy and most effective! Participants who use their online tools raise nearly three times as much as those who don't. It's safe, secure, and eliminates the need to handle cash and checks. Plus all the record-keeping is done for you through the web.

**Q. What do I do with my money?**

A. To be eligible for incentives, donations must be turned in by event day. You are welcome to drop off or mail donations to the PCRF office as you receive them to keep your online goals up to date.

**Q. Should I register my infant or toddler?**

A. Not necessary to register the little ones – unless they will want a shirt and goodie bag on event day!

**Q. If I can't walk, how can I help?**

A. Even if you can't walk the route, you can still help make a difference by making a donation.

**Q. How does packet pickup work with teams?**

A. When you pick up as a team all your shirts, prize forms and tickets will be grouped together. The Captain will have to distribute them to your team. Alternatively, you can have everyone pick up their items individually.

The only caveat to this, is custom shirts!

Team Captains will have to pass out the team's custom shirts even if you choose to pick up individually.

**Q. Is there child care?**

A. Although this is a family friendly event, we do not provide child care and ask that you follow normal precautions in caring and monitoring your children.

**Q. What happens if it rains, is the event still happening?**

A. Yes, the event is still happening. Kids fight cancer every day, rain or shine - so will we! We look forward to seeing each and every one of you at the start line, even if the weather is being a little moody.

**Q. What if I'm missing some shirts for my team?**

A. Oh gosh! Sorry about that. Our volunteers do their best to pack our team packets. Just go ahead and have your team member come to the registration table and they will be happy to give them a ticket to claim their shirt!

**Q. Can we bring our dogs to the event?**

A. We are guests at UCLA, and they have asked us to refrain from bringing pets on campus. In addition, there are no dogs allowed in Pauley Pavilion where the Dribble will conclude.
